

1. Create the table as **employee** and the details are

S.No	Name	Designation	Branch
1	Ram	Assistant	Chennai
2	Santhosh	Supervisor	Madurai
3	Krishnadass	Manager	Thrissur

Perform the following

Alter the table by adding a column **salary**

Alter the table by modifying a column **Name**

Describe the table of **employee**

Copy the table of **employee** as **emp**

Truncate the table

Delete the second row from the table

Drop the table

2. Write a program to find sum of two numbers using PL/SQL Block.
- 3.

Consider the Insurance database given below. The primary keys are underlined and the data types are specified.

PERSON (driver – id #: String, name: String, address: String)

CAR (Regno: String, model: String, year: int)

ACCIDENT (report-number: int, accdate: date, location: String)

OWNS (driver-id #: String, Regno: String)

PARTICIPATED (driver-id#: String, Regno: String, report-number: int, damage-amount: int)

Demonstrate how you:

Update the damage amount to 25000 for the car with a specific Regno in the accident with report number 12.

Add a new accident to the database.

Find the total number of people who owned cars that were involved in accidents in 2008.

Find the number of accidents in which cars belonging to a specific model were involved.

4. Create a trigger on insert
5. Implement the concept of packages
6. Perform Trigger
- 7.

1. The following tables are maintained by a book dealer:

AUTHOR(author-id: int, name: String, city: String, country: String)

PUBLISHER(publisher-id: int, name: String, city: String, country: String)

CATALOG(book-id: int, title: String, author-id: int, publisher-id: int, category-id: int, year: int, price: int)

CATEGORY(category-id: int, description: String) **ORDER-DETAILS**(order-no: int, book-id: int, quantity: int)

- a) Give the details of the authors who have 2 or more books in the catalog and the price of the books is greater than the avg price of the books in the catalog and the year of publication is after 2000.
- b) Find the author of the book which has maximum sales.
- c) Demonstrate how you increase the price of books published by a specific publisher by 10%.

8.
